

DIGITAL ASSET TRADING VOLUMES ARE SPLIT BETWEEN

CENTRALIZED

Most traders prefer the cheap, fast, high liquidity options offered by centralized platforms.

DECENTRALIZED

Many are now flocking to decentralized alternatives that offer more security, privacy and transparency.

CENTRALIZED EXCHANGES TRADING VOLUME

Best of both worlds solution like **Leverj**, now coming to the market, offer non-custodial, blockchain verified trading using the layer 2 sidechain Gluon to offer more efficient throughput and reduced fees to satisfy both ends of the market.
